Introduction to Vouchers4:

Vouchers4 is a brand new GPT (Get Paid to) website, which in users completes a survey (content locker). Upon completion of said survey, YOU get the money. They also multiple choices of cashing out our most popular choice is Amazon vouchers and Hackforums Membership Yes, we're the first to have this!

They don't believe in an average earnings from a standard GPT that's why they offer fantastic surveys with huge rewards per each, but if you do want to know what it is, it's **\$3.00 on average per survey!!**. I have provided a few testimonials at the bottom of this thread, just so you know what you're getting yourself into!

Why Vouchers4

Vouchers4 is a private GPT, and they have the easiest site to navigate and earn for a GPT site yet, and this is because they're switching things up for everyone. They have tried hard to get their launch date up to speed, they are officially launching now, in October 2012.

The referral rate stands at 10% of what your referrals earn, for life! You may think 10% is not a lot, but if your referral earns 1000 points you make a free 100 points and so on. This is a great deal if you know people who are very good at completing surveys to refer!

Payouts and Withdrawals

You can withdraw money as soon as your balance hits 100 points(**Very easy**).

They currently offer the following payout options;

Paypal

Moneybookers

Payza

Hackforums Membership.

Amazon gift cards.

About any website that provides gift cards.

Latest News

New Survey Network

We will be changing the survey network at vouchers4.us. Hopefully the new one will offer you a better survey and the surveys should be easier for you to complete. We will be monitoring the new network against our previous one to see how well it performs.

If you have any problems after the switch over, please let us know [Contact Us](#). The switch over will be completed in the next few hours, and we will edit this post when it's completed (Switch over has been completed).

Thank you
